ITA

Fondata nel **1963** da Scipione Mardollo, Bitubo si propone da sempre come una Azienda dinamica per tutto ciò che riguarda il controllo delle oscillazioni, di qualsiasi tipo, realizzando sistemi di smorzamento all'avanguardia e innovativi, dalle applicazioni, come le Protesi per Arti, Smorzatori Sismici, ai sistemi ammortizzanti per piattaforme Oceaniche, fino a fornire smorzatori di vibrazione per Motori Navali.
Sul mercato motociclistico si impone dal **1975** la famosa coppia di ammortizzatori collegati da due tubi compensatori in gomma - da qui il nome "Bitubo" -, adottati subito dai più grandi Campioni.
Nella velocità, il primo alloro mondiale è nel **1979** con E. Lazzarini nella classe 50 cc, bissato l'anno successivo, mentre nella 125 GP vince il Mondiale '93 con D. Raudies, ed è vicecampione nel '94.
Tra gli accessori ad altissima tecnologia, gli Ammortizzatori di Sterzo, con camera coassiale di compensazione di Azoto (Brevetto dal 1992).

Nel **1993** prima forcella al mondo con vaschetta di compensazione esterna con sistema "big piston".
Nel **1998** Bitubo presenta il rivoluzionario Mono 4 Regolazioni. Coperto da brevetti internazionali, si pone subito come un riferimento, attuale ancora oggi, per la tecnologia mondiale delle sospensioni.
Nel **2000** presenta HDX00 Racing Fork, forcella completa ideata e realizzata da Bitubo per rivoluzionare il livello tecnologico esistente. Integralmente regolabile e pressurizzata (azoto), con sistema big piston brevettato e con foderi a profilo non cilindrico, viene adottata nel mondiale SBK, e nel **2003** vince l'alloro Italiano nella SBK.
Nel **2004** Bitubo collabora con Alex Zanardi.
Nel **2004** Bitubo vince con il Team Lightspeed nel CIV.
Nel **2007** Bitubo partecipa all'evento Suzuka 8h.
Gli anni **2008** e **2011** vedono Jason Crump portare Bitubo alla vittoria nel campionato Speedway.
Nel **2009** Bitubo ha brevettato un sistema idraulico innovativo che abbiamo denominato FPS. Questo da subito ha conquistato record di pista, podi e vittorie sia di gare che di campionato. FPS, nato con il modello ECH, prima cartuccia esistente in commercio con precarico idraulico, è ora applicato su EBH e su forcella RRH.
Nel **2009** Garry McCoy porta al podio Triumph equipaggiata con Bitubo nel World Supersport.
Nel **2009** Bitubo vince con Cruciani nel CIV nella categoria SSTK1000.

Nel **2011** Bitubo vince il titolo Mondiale Supersport con Chaz Davies su Yamaha YZF-R6 del Team ParkinGo.
Nel **2012** Bitubo presenta il primo sistema di sospensioni semiattive elettroreologiche (ER) per moto al Mondo ed il suo primo sistema di sospensioni adattattive (DS). L'azienda, inoltre, si dota dei sistemi MRP/ERP integration per un'automazione dei processi per un rapido servizio di evasione ordine anche per richieste di materiale personalizzato.
Nel **2013** Bitubo compie 50 anni di attività.
Nel **2013** Bitubo ottiene la vittoria nel mondiale Supersport con Sam Lowes.

Nel **2015** vengono introdotti i tablet per la gestione e l'efficientamento del flusso delle informazioni e riduzione del consumo cartaceo in un'ottica di Green economy. Nello stesso anno inizia la collaborazione con Moto for Peace. Moto for Peace è un'associazione ONLUS che ha l'obiettivo di diffondere la conoscenza delle svariate culture del mondo e che persegue finalità umanitarie attraverso spedizioni motociclistiche. La vittoria nel campionato Isle of Man Senior TT di Michael Dunlop con 133.256 MPH lap record avviene nel **2016**.
Dal **2018** il magazzino verticale entra a far parte dell'azienda per la tracciabilità dei lotti. Il pilota Davide Stirpe, nel **2018**, vince il CIV con Bitubo.
Bitubo è un'azienda in continuo sviluppo ed espansione. A seguito di questa crescita, nel **2022** BITUBO si avvicina al mercato statunitense aprendo la filiale Bitubo USA LLC a Miami, Florida.

Scipione Mardollo, fondatore di Bitubo / *Scipione Mardollo, Bitubo founder*

Alex Zanardi e Gianni Mardollo / *Alex Zanardi and Gianni Mardollo*

ENG

Bitubo is a company focused on the manufacture of suspension for the motorcycle aftermarket as well as industrial and automotive markets throughout the world.
Founded in **1963** by Scipione Mardollo, Bitubo immediately established itself as a dynamic company on anything related to the control of vibrations of any type, creating cutting-edge, innovative damping systems. Bitubo extended its knowledge to applications such as artificial limbs, seismic dampers, damping systems for oceanic platforms, including vibration dampers for naval engines. Since **1975**, Bitubo has imposed itself at the forefront of the motorcycle market with the innovation of a famous pair of shock absorbers connected by two compensating rubber pipes – hence the name "Bitubo" – that were immediately adopted and raced by the greatest Champions.In road racing, the 1st World Championship was won in **1979** by E. Lazzarini in the 50cc Class, who repeated the achievement year after.
In the 125 GP, the **1993** World Championship was won by D. Raudies, who was also the runner-up in the **1994** season.
Among the high technology accessories, we offer Steering dampers with Nitrogen compensating coaxial chamber (Patent since **1992**).
In **1993** presented the rst world fork featuring a separate chamber with a "big piston" system.
In **1998** Bitubo introduced the revolutionary Mono 4 Regolazioni rear shock absorber. Protected by international patents, it immediately became the benchmark, still relevant today, in the world of suspension technology.
In **2000** Bitubo presented the HDX00 Racing Fork, the 1st complete fork designed and created by Bitubo to revolutionize the existing technology. Completely adjustable and pressurized (nitrogen), with a non-circular outer tube and a patented big piston system, it is adopted into the SBK World Championship, and in **2003** it wins the Italian SBK Championship.
In **2004** Bitubo collaborates with Alex Zanardi and wins with the team Lightspeed in CIV. In **2007** Bitubo participated in the Suzuka 8h event.
**2008** and **2011** saw Jason Crump bringing Bitubo to victory in the Speedway championship.

In **2009** Bitubo patented an innovative hydraulic system that we named FPS. This immediately conquered track records, podiums and victories of both races and championship. FPS, born with the ECH model, the first cartridge on the market with hydraulic preload, is now applied on EBH and RRH fork.
In **2009** Garry Mccoy takes to the podium Triumph equipped with Bitubo in the World Supersport.
In **2009** Bitubo wins with Cruciani in the CIV SSTK1000 category.

In **2011** Bitubo won the World Supersport Championship with Chaz Davies on Yamaha YZF-R6 of the Team ParkinGo.
In **2012** Bitubo presented the 1st worldwide semiactive electroereological system for suspension (ER) for motorcycles as well as its first system of adaptive suspension (DS). Since **2012** the company has been equipped with MRP/ERP integration systems for process automation for a quick order fulfillment service also for requests for customized material.
In **2013** Bitubo celebrates 50 years of activity.
In **2013**, Bitubo obtains the victory in the world Supersport with Sam Lowes

In **2015** tablets are introduced for the management and efficiency of the flow of information and reduction of paper consumption in a perspective of Green Economy.
The collaboration with Motoforpeace begins in **2015**. Moto for Peace is an association ONLUS that aims to spread the knowledge of the various cultures of the world and that pursues humanitarian purposes through motorcycle expeditions.
Michael Dunlop's victory in the Isle of Man Senior TT championship with 133,256 MPH lap records took place in **2016**.
Since **2018**, the vertical warehouse has become part of the company for the traceability of lots.
The pilot Davide Stirpe, in **2018**, wins the CIV with Bitubo.
Bitubo is a Company in continuous development and expansion. As a result of this growth, in **2022** BITUBO approaches the US market and opens the branch Bitubo USA LLC in Miami, Florida.

# AZIENDA

# OEM & INDUSTRIAL

ITA

Bitubo offre il proprio know-how e la propria struttura per realizzare sospensioni su richiesta e specifiche del cliente, secondo accordi di co-branding e private label.
Bitubo è certificata ISO 9001 dal 2006 e dal 2017 nella sezione ISO 9001:2015, questi nostri standard qualitativi ci hanno permesso di ottenere l'omologazione tedesca ABE per più del 60% del catalogo ed in particolare il nostro sistema DS è stato il primo sistema elettronico aftermarket a ricevere l'omologazione VCA.
Questo know-how ci ha permesso di essere fornitori del gruppo Piaggio dal 1986 circa affiancandoli nello sviluppo e produzione di prodotti OEM ed accessorio, siamo fornitori del produttore Ural sidecar e abbiamo sostenuto con successo un Audit del Gruppo BMW.
Siamo alla ricerca di ulteriori partner per il settore OEM ed accessorio e crediamo che un produttore Italiano di Veicoli possa essere per il mercato un connubio ottimale.
Siamo disponibili anche a collaborare per il team WSBK e MOTOGP per rafforzare questo possibile legame e raggiungere degli ottimi obiettivi congiunti, abbiamo sviluppato nuovo materiale per il reparto corse che potremmo sottoporre all'attenzione dei nostri centri assistenza dislocati nel mondo. Sono un supporto tecnico per i consumatori finali che possono appoggiarsi a loro per una revisione (manutenzione base), set up e bilanciamento del mezzo (personalizzazione) e garanzie sul nostro prodotto.

ENG

Bitubo offers its own know-how and structure to design suspensions under customer's requests and specifications, according to co-branding or private label agreements.
Since 2006 Bitubo is ISO 9001 certificated and since 2017 the high-quality manufacturing process earned Bitubo the quality certification UNI EN ISO 9001:2015. This high quality standard enabled our company to obtain the German homologation ABE certification for more than 60% of our catalogue; in particular, our system of adaptive suspension (DS) received a VCA homologation as first electrical system of aftermarket.
Our expertise made us become supplier of PIAGGIO group since 1986, providing development and production for OEM suspensions and accessories. Moreover, we supplied sidecar Ural Company and successfully managed an Audit of BMW Group.
Our aim is to enlarge our network of partners in OEM suspensions and accessories field and we are sure your partnership could be of key importance for our goal.
We are eager to cooperate with WSBK Team and MOTOGP in order to strengthen this possible connection and achieve mutual goals: we have developed new material for the racing department focusing the attention on our technical centers all over the world. These centers mean technical support available everywhere for the need of final clients with revision (basic maintenance), set up, vehicle balancing, customization and products liability.

# RICERCA E SVILUPPO/RESEARCH & DEVELOPMENT

ITA

Bitubo ha da sempre come mission aziendale quella di offrire al mercato il massimo della tecnologia ed innovazione per soddisfare le richieste che il mercato motociclistico richiede. Per questo motivo l'innovazione presente nei suoi prodotti è fondamentale. Bitubo dispone internamente di un nutrito staff dedicato allo sviluppo dei nuovi prodotti e si avvale anche della collaborazione di Atenei italiani, quali le Università di Ingegneria di Padova e di Milano. La costante attività di sviluppo ha permesso all'Azienda di depositare svariati brevetti. Bitubo pianifica lo sviluppo sia dell'innovazione tecnologica del prodotto che del processo produttivo. Nel prossimo triennio sono già previste diverse realizzazioni di prodotti innovativi per il settore racing, per il settore Custom ed Off Road, e prodotti per mobilità urbana. Inoltre nell'ultimo biennio Bitubo ha effettuato ingenti investimenti per la digitalizzazione e proseguirà nell'informatizzazione del processo logistico e produttivo, nonché del Controllo Qualità in linea.

ENG

Bitubo's mission is always to offer to the market the best technology and innovation to meet the need that motorcycle market requires. For this reason, the innovation present in its products is fundamental. Bitubo has an intern large staff dedicated to the development of new products and also makes use of the collaboration of Italian universities, such as the Engineering Universities of Padua and Milan. The constant development activity has allowed to the Company to file several patents. Bitubo plans the development of both technological product innovation and the production process. In the next three years several innovative products are already planned for the racing sector, for the Custom and Off Road sector, and products for urban mobility. Moreover, in the last biennium Bitubo has carried out huge investments for the digitalization and will continue in the computerization of the logistic and productive process, as well as in the Control Quality in line.

## CERTIFICAZIONE E QUALITÀ /CERTIFICATION & QUALITY

ITA

Bitubo è certificata ISO 9001 dal 2006, e dal 2017 nella sezione ISO 9001:2015. Questi standard qualitativi ci hanno permesso di ottenere anche l'Omologazione tedesca ABE per più del 70% del catalogo. In particolare il nostro sistema DS è stato il primo sistema elettronico aftermarket a ricevere l'omologazione VCA. Questo Know-How ha permesso a Bitubo di fregiarsi del titolo di Fornitore del gruppo Piaggio dal 1986, affiancandoli nello sviluppo e produzione di prodotti OEM ed accessorio. Bitubo è Fornitore di Ural ed ha sostenuto con successo un Audit del Gruppo BMW.

ENG

Bitubo has been ISO 9001 certified since 2006, and since 2017 in the ISO 9001:2015 section. These quality standards allowed us to obtain the German ABE Approval for more than 70% of the catalogue. In particular, our DS system was the first electronic aftermarket system to receive VCA approval. This know-how has allowed to Bitubo to claim the title of Supplier of the Piaggio Group since 1986, supporting them in the development and production of OEM products and accessories. Bitubo is Ural's supplier and has successfully supported an audit of the BMW Group.

## PERSONALIZZAZIONE/CUSTOMIZATION

ITA

Bitubo offre la possibilità di realizzare prodotti su misura per soddisfare ogni esigenza del cliente. Comunicando al momento dell'ordine il peso del pilota e dell'eventuale passeggero, Bitubo invierà al proprio cliente un prodotto personalizzato, con un codice unico riconoscitivo, senza alcun sovraprezzo. Se tra il range di colorazioni molle disponibili, si desidera personalizzare il prodotto con un colore diverso, è possibile farlo al momento dell'ordine, senza alcun sovraprezzo direttamente dalla produzione.

Grazie alla compilazione del modulo di rilevamento, è possibile verificare la presenza nel nostro catalogo di prodotti compatibili con la moto ricercata, qualora per questa non siano già previsti modelli di ammortizzatori specifici.

ENG

Bitubo offers the possibility to make customized products to meet every customer's need. By communicating at the time of the order the weight of the rider and the passenger, Bitubo will send to its customer a customized product, with a unique recognition code, without any surcharge. If among the range of soft colors available, you want to customize the product with a different color, you can do it at the time of order, without any surcharge directly from the production.

Filling out the shock pattern data, you can check in our catalogue the presence of products compatible with the suitable motorcycle, if for this bike still there aren't provided models about specific shock absorbers.

# CORSI/TRAINING

ITA

**RIVENDITORI** I nostri tecnici organizzano ciclicamente corsi per i rivenditori che vogliono approfondire la loro conoscenza sulle sospensioni ed offrire ai propri clienti un miglior servizio di consulenza e personalizzazione del veicolo. I corsi sono su livelli progressivi a partire dai neofiti delle sospensioni fino ai corsi avanzati per i tecnici che operano nei circuiti.

**CENTRI TECNICI BITUBO (CTB)** Bitubo mira ad ampliare la rete di Assistenza sul territorio, nazionale ed internazionale, selezionando nuovi centri e fornendo la preparazione necessaria per riparare tutta la gamma dei prodotti Bitubo. I CTB partecipano costantemente ai corsi specifici per offrire al nostro cliente una consulenza sempre aggiornata.

ENG

**RETAILERS** Our technicians organize cyclically courses for retailers who want to deepen their knowledge of suspensions and offer their customers a better service of advice and customization of the vehicle. The courses are on progressive levels starting from the newbies of the suspensions up to the advanced courses for the technicians who operate in the circuits.

**WORLDWIDE TECHNICAL CENTERS (CTBs)** Bitubo aims to expand the national and international service network, selecting new centers and providing the necessary preparation to repair the entire range of Bitubo products. CTBs constantly take part in specific courses in order to offer our clients up-to-date advice.

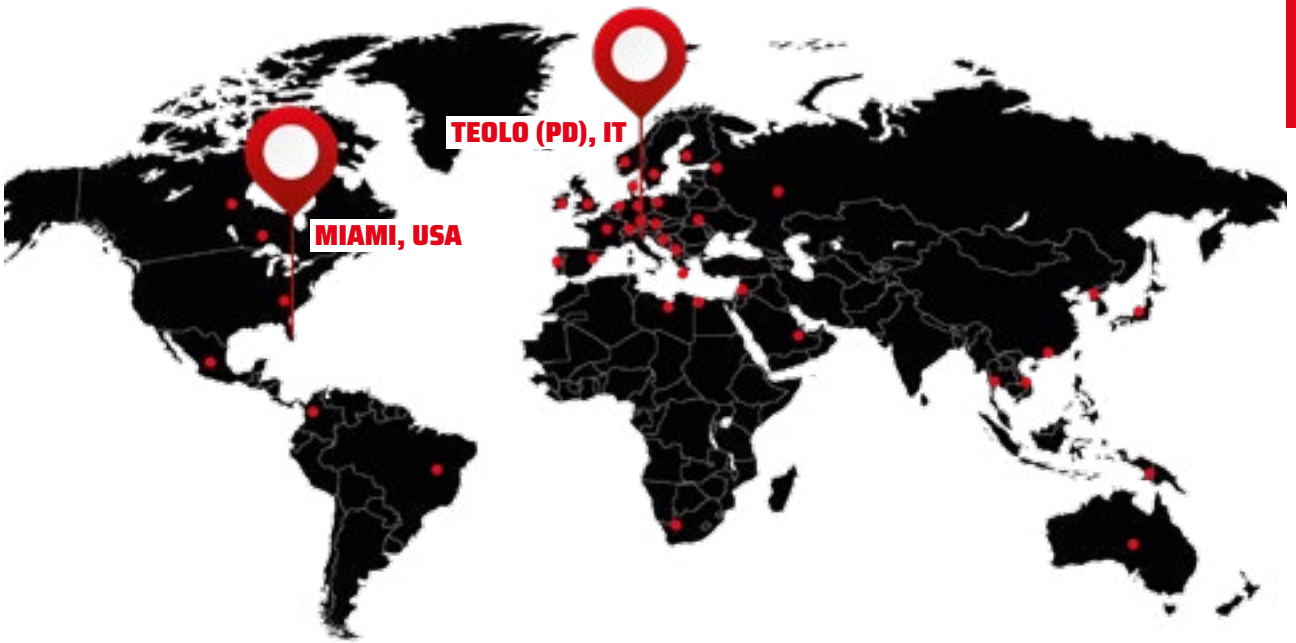
# I NOSTRI CLIENTI IN TUTTO IL MONDO/WORLDWIDE CUSTOMER BASE

ITA

Grazie ad una struttura moderna ed impianti di produzione ben organizzati, Bitubo ha la capacità di soddisfare le richieste di clienti da tutto il mondo. Bitubo esporta in Europa, USA, Canada, Sud America, Sud Africa, Asia ed Oceania. È stato avviato il programma di ampliamento della capillarizzazione dei Centri Assistenza in tutto il mondo.

ENG

Thanks to a modern structure and well-organized production facilities, Bitubo has the ability to meet the demands of customers from all over the world. Bitubo exports to Europe, USA, Canada, South America, South Africa, Asia and Oceania. The program of widening of the capillarization of the Centers Assistance in all the world has been launched.



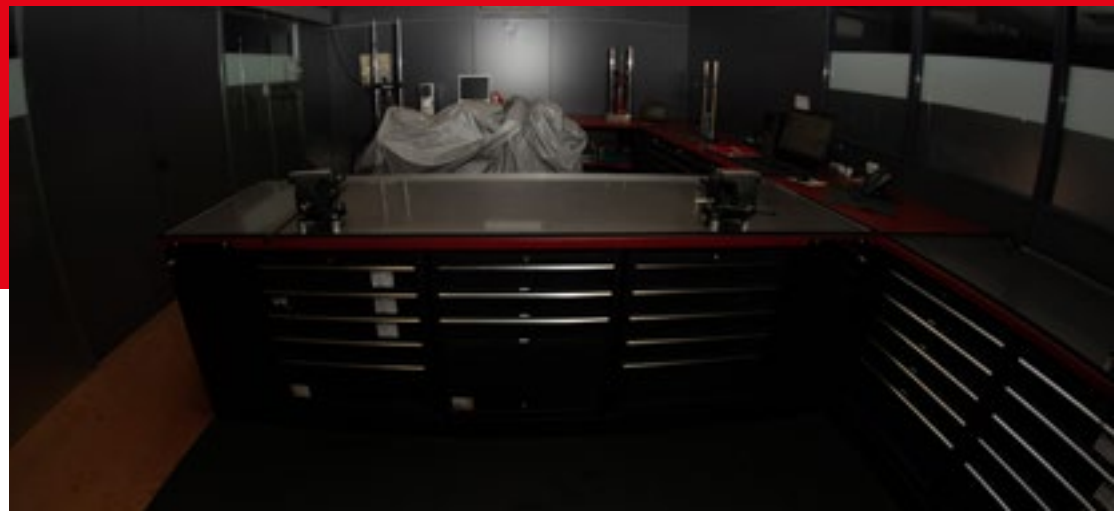
# GARANZIA LONG LIFE /LONG-LIFE WARRANTY

ITA

BITUBO E' LIETA DI ANNUNCIARE L'ESTENSIONE DELLA GARANZIA A PARTIRE DAL 2021!
La garanzia standard dei prodotti Bitubo è valida per 24 mesi (o dopo 20.000 Km di utilizzo) dalla data riportata nel documento di acquisto.
I prodotti acquistati a partire dal 01/01/2021 potranno godere della Long Life Warranty: è possibile infatti estendere la Garanzia per ulteriori 24 mesi (o ulteriori 20.000 Km).
La garanzia può arrivare ad una estensione massima di 6 anni o 60.000 Km, a condizione che venga eseguita una revisione periodica, con sostituzione delle parti usurate del prodotto garantito, presso un CTB autorizzato, prima della scadenza di ciascun periodo di garanzia. La revisione periodica ha l'obiettivo di mantenere inalterata la funzionalità del prodotto nel tempo.

ENG

BITUBO IS GLAD TO ANNOUNCE THE EXTENSION OF ITS WARRANTY FROM 2021!
The standard warranty of Bitubo products is available for 24 months (or after a use of 20.000 Km) from the date indicated in the purchasing document.
The products purchased from 01/01/2021 will enjoy the Long-life Warranty: actually it is possible to extend the warranty for further 24 months (or 20.000 Km).
The warranty can be extended up to a maximum of 6 years or 60.000 Km, with the condition that a periodic overhauling is carried out with a replacement of the worn parts of the guaranteed product. The overhauling should be made on an authorized CTB before the expiry of each warranty period. The periodic overhauling aims to maintain the functionality of the product over time.



# REPARTO CORSE E SERVIZIO IN PISTA /R&D DEPT AND SERVICE ON TRACK

ITA

Bitubo ha nel proprio DNA le competizioni!
Gli oltre 50 anni di esperienza nei campi gara in tutto il mondo e in molteplici settori ha portato il nostro know-how ad alti livelli.
Attraverso la ricerca e lo sviluppo presso il nostro Reparto Corse, dotato di attrezzature all'avanguardia, otteniamo la conferma in termini di performance nei campi gara che sta portando i prodotti Bitubo dedicati al racing ad uno sviluppo continuo.
La nostra squadra di tecnici in costante formazione e le collaborazioni con gli Atenei per attingere a nuove forme di test ci portano ad ottenere negli anni risultati mondiali e brevetti internazionali.

ENG

Bitubo has competitions in its DNA!
The over 50 years of experience in the competition fields worldwide and in multiple sectors has brought our know-how to high levels.
Through research and development at our Racing Department, equipped with state-of-the-art equipment, we obtain confirmation in terms of performance in the race fields that is bringing Bitubo products dedicated to racing to a continuous development.
Our team of technicians in constant training and collaborations with universities to draw on new forms of testing lead us to obtain worldwide results and international patents over the years.

# RACING AND ROAD

# RRH LC

ITA

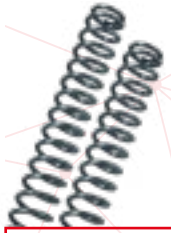
## Top di gamma

RRH **concentra i comandi di regolazione** nella parte superiore per un intervento di messa a punto più facile e veloce.
**Vengono alleggerite le masse non sospese** e con esse **il peso totale**.
Il design di accoppiamento piedino, conferisce una migliore struttura scaricando meglio le forze sullo stelo per una migliore scorrevolezza.
Il tappo superiore dispone delle regolazioni di **precarico molla, estensione e compressione**.

ENG

## Top range

*RRH **concentrates the adjustment controls** at the top for easier and faster tuning.*
*U**nbroken masses are lightened** and with them the weight total. The foot coupling design, gives a better structure by better discharging forces on the stem for better smoothness.*
*The top cap has spring **preload, extension and compression adjustments**.*



Nella confezione sono incluse 2 ulteriori molle di ricambio con diverse rigidità per ampliare il range personalizzazione.

*The package includes 2 more spare springs with different stiffness rates for expanding the range of customization.*

| REGOLAZIONI /ADJUSTMENTS | Compressione /compression | Estensione /rebound | Precarico molla /spring preload |
|---|---|---|---|

# EBH LC e FPS

ITA

## Cartuccia forcella, creata per il Racing

La cartuccia pressurizzata EBH racchiude in sé una serie di sistemi innovativi quali i già conosciuti FPS, EC, LC e il nuovo sistema di controllo della sovrapressione OPC (over pressure control) è ora disponibile nei gambali di estensione e compressione.
Questi sistemi sono frutto di una lunga esperienza di sviluppo da parte del nostro reparto Ricerca e Sviluppo in collaborazione con alcuni dei migliori Team che hanno partecipato al Mondiale SBK, BSB, IDM, CIV. Sul tappo superiore si trovano tutte le regolazioni, precarico molla, estensione e compressione che sono distinte nelle due cartucce, semplici ed intuitive.
La particolare distribuzione della compensazione permette di ottenere un altissimo controllo ed un ampio range di regolazioni per soddisfare le esigenze di guida di tutti i piloti.

ENG

## Fork cartridge created for Racing

The EBH pressurized cartridge incorporates a series of innovative systems such as the already known FPS, EC, LC and the new OPC (over pressure control) is now available in the extension and compression sleeves. These systems are the result of a long experience of development by our Research and Development department in collaboration with some of the best teams that participated in the World SBK, BSB, IDM, CIV.
On the top cap are all adjustments, spring preload, extension and compression that are distinguished in the two cartridges, simple and intuitive.
The particular distribution of the compensation allows to obtain a very high control and a wide range of adjustments to meet the riding needs of all riders.

**LC** **Light Components:** questo prodotto ha un'alta percentuale di leghe leggere speciali e particolari ottimizzati nel peso, con l'obbiettivo di raggiungere la massima leggerezza possibile. ***Light Components:*** *this product has a high percentage of special light alloys and details optimized in weight, with the aim of achieving the maximum lightness possible.*

ITA

### SPECIFICHE TECNICHE

- Controllo idraulico con sistema FPS (Brevetto Bitubo) pistone Ø27mm in Ergal
- Steli pompante Ø10mm con riporto superficiale antiattrito
- Finecorsa meccanico con tampone elastico in NBR
- Molle in acciaio di alta qualità, procedimento di assestamento e pallinatura finale
- Tappo superiore forcella con regolazione precarico molla integrato
- Regolazione indipendente dello smorzamento in Compressione ed Estensione
- Camera di compensazione coassiale (Brevetto Bitubo)
- Corpo cartuccia in Ergal con riporto superficiale antiattrito
- Lubrificazione idraulica separata dalla lubrificazione di scorrimento
- Sistema di controllo della forza di pressurizzazione

ENG

### TECHNICAL FEATURES

- Hydraulic control with FPS system (Bitubo Patent) Ø27mm Ergal piston
- Ø 10mm pumping rod with anti-friction surface coating
- Mechanical bottom-out with elastic buffer in NBR
- Steel springs with high quality, bedding process and final shot blasting
- Upper fork cap with integrated spring preload adjustment
- Independent damping adjustment in compression and extension
- Coaxial Compensation Chamber (Bitubo Patent)
- Ergal cartridge body with anti-friction surface coating
- Hydraulic lubrication separated from sliding lubrication
- Pressurization force control system

# FPS

**Full Pressure System**: Il sistema è pressurizzato con gas a bassa pressione e camera coassiale. Le cartucce sono asimmetriche: una controlla la fase di compressione, mentre l'altra la fase di estensione. La particolare distribuzione della compensazione permette di ottenere un altissimo controllo ed un ampio range di regolazioni per soddisfare la guida di tutti i piloti.

Questo sistema consente di ottenere curve di smorzamento sia superiori che inferiori rispetto all'idraulica della forcella standard, in particolare alle bassissime velocità.

***Full Pressure System:*** *The system is pressurized with low pressure gas and coaxial chamber. The cartridges are asymmetric: one controls the compression phase, while the other the extension phase. The particular distribution of compensation allows you to get a very high control and a wide r ange of adjustments to meet the driving of all riders.*

*Thanks to the possibilities offered by FPS, the adjustments available on the Bitubo EBH allow a wider range of damping curves compared to the a standard hydraulic fork, especially at very low speeds.*

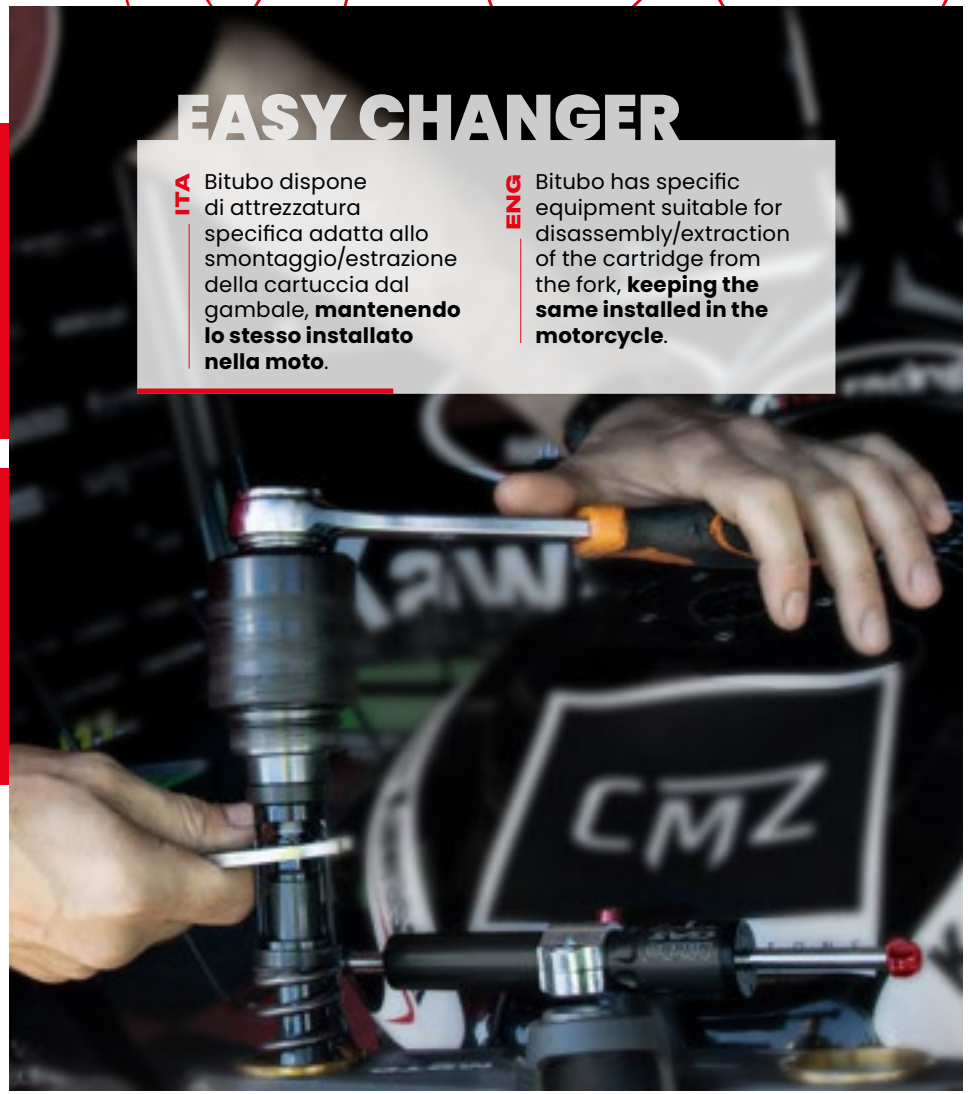
La confezione del kit molle è corredata da Olio Synt FUCHS-Silkolene ad alta scorrevolezza. Per la massima efficacia consigliamo l'utilizzo del nostro KIT S. Disponibile per le più diffuse sportive 600-1000cc presenti sul mercato.

*This product is supplied with FUCHS-Silkolene synthetic oil. The use of our KIT S is recommended. It is available for the most popular 600-1000cc bikes on the market.*



# KIT S

ITA

## La scorrevolezza è essenziale

Bitubo seleziona le migliori boccole di scorrimento inserite in sedi in ergal studiate per diminuire l'attrito che si crea durante il movimento della forcella. La performance viene portata ai massimi livelli utilizzando guarnizioni con basso coefficiente d'attrito. Il kit aggiunge un importante miglioria alla struttura del gambale forcella originale.

ENG

## Smoothness is essential

Bitubo selects the best sliding bushings inserted in ergal seats designed to reduce the friction that is created during the movement of the fork. The performance is brought to the highest levels using gaskets with a low coefficient of friction. The kit adds an important improvement to the structure of the original fork leg.

### SPECIFICHE TECNICHE

- Coppia boccole inserite in un anello in Ergal 7075 dimensionalmente calibrato
- Coppia paraoli stelo, trattamento di impregnazione auto lubrificante

### TECHNICAL FEATURES

- Pair of lower bushings placed inside a ring made of 7075 Ergal, dimensionally precise
- Pair of rod oil seals, impregnated with a lubricant

# PARAOLI /SEALS

**PARAOLI E RASCHIAPOLVERE/OIL AND DUST SEALS**

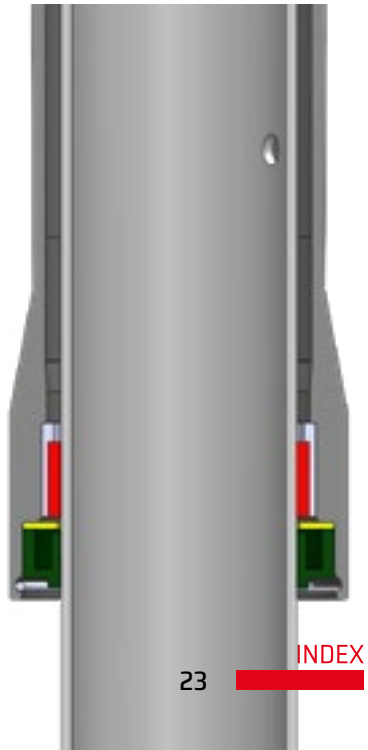
Coppia Paraolio e Raschiapolvere Forcella ad alta scorrevolezza, selezionati dai migliori produttori Giapponesi e Italiani, disponibili in diverse misure.
Le guarnizioni subiscono una impregnazione con materiale antifrizione volto a limitarne gli attriti. Ove possibile i paraoli vengono forniti con 1 singolo labbro di tenuta per migliorare la funzionalità della forcella.

*Pair Oil Seal and Dust Scraper Fork high smoothness, selected from the best Japanese and Italian manufacturers, available in different sizes. The gaskets are impregnated with anti-friction material to limit friction. Where possible, the seals are supplied with 1 single seal lip to improve fork functionality.*

# KIT S

Il KIT S è sviluppato per aumentare la scorrevolezza della forcella.

*The S kit has been developed to increase the smoothness of the fork.*



# JBH

## ITA Il perfetto upgrade

Le cartucce JBH costituiscono il perfetto upgrade per migliorare le performances della forcella della moto di serie. Le cartucce sono dotate di molte regolazioni quali precarico molla, estensione e compressione. Sono Plug & Play: non richiedono, cioè, alcuna modifica per il montaggio e questo permette di rimontare la moto totalmente di serie in qualsiasi momento.

## ENG The perfect upgrade

The JBH cartridges are the perfect upgrade to enhance the performance of OEM fork.
The cartridges are equipped with many adjustments such as spring preload, rebound and compression.
They are Plug & Play: they do not require, that is, any modification for the assembly and this allows to completely reassemble the motorbike of series anytime.

| REGOLAZIONI /*ADJUSTMENTS* | JBH01 | JBH01V1 | JBH01V2 |
|---|---|---|---|
| Precarico/*preload* | 10 mm (10 turns) continua/stepless | 15 mm (30 clicks) 1 mm = 1 turn = 2 clicks | 15 mm (30 clicks) 1 mm = 1 turn = 2 clicks |

## Fluidi idraulici che esaltano le prestazioni

Quello che nel gergo comune viene chiamato 'Olio' in verità è un Fluido Idraulico dalle elevatissime caratteristiche tecnologiche, meccaniche e chimiche. La gamma di prodotti è stata sviluppata in laboratorio e successivamente testata in pista per fornire le massime prestazioni. FUCHS-Silkolene, in collaborazione con il reparto sviluppo Bitubo, ha perfezionato e definito nuove formule con diverse gradazioni per molteplici usi, sia per forcelle che ammortizzatori. Questi esaltano le prestazioni e la durata delle vostre sospensioni, mantenendone costante il funzionamento anche a proibitive temperature e stress prolungati.
La tabella in catalogo raccomanda il corretto utilizzo dell'olio e grasso lubrificante.

ENG

## Hydraulic fluids for top performances

What is commonly called "Oil" is really an Hydraulic Fluid with the maximum technological, mechanical and chemical features. The product range was first scientific developed and then tested at the race track to offer the highest performance. FUCHS-Silkolene, in collaboration with Bitubo R&D Department, improved and defined a new formula with different grades for forks and shock absorbers depending on the use. These ensure the endurance and performance of your suspension, keeping it working at a constant stability even at high temperatures and under extended stress.See the catalogue chart for the correct use and recommendation of the oil and grease.

ITA

La gamma di lubrificanti Bitubo include il **Grasso al Silicone**, ideale per ammortizzatori, utilizzato ove ci sono altissime pressioni, e per forcelle, migliorando notevolmente la scorrevolezza e la durata delle guarnizioni.

ENG

*Bitubo Lubricant Range includes **Silicone Grease**, specific for shock absorbers, used at very high pressures, and for front forks, improving the sliding and endurance of the seals.*

# MOLLE FORCELLE /FORK SPRINGS

## MOLLE /SPRINGS

### LINEARI
### *LINEAR RATE*

**ITA**

Le molle a caratteristica lineare sono indicate per l'uso su moto sportive che richiedono una uniforme risposta su tutta l'escursione dell'avantreno. Sono disponibili con diverse rigidità per le diverse necessità di messa a punto, per ottenere il miglior controllo e prestazioni più elevate.

**ENG**

The linear springs are recommended for use on sport bikes requiring an even response on the complete stroke of the front end. They are available with different stiffness rates for the different set-ups, in order to get the best control of the highest performance levels.

### PROGRESSIVE
### *PROGRESSIVE RATE*

**ITA**

Le molle a caratteristica progressiva sono indicate per moto da Turismo e naked che hanno un ampio e diversificato utilizzo, offrono confort di guida, unito al sostegno anche per condizioni di guida a veicolo carico.

**ENG**

The progressive springs are designed for touring and naked bikes having alarge and varied use.
They grant riding comfort together with stability and safety even with heavy loads.

Le molle "set-up base" sono specifiche per un peso pilota medio tra 70 e 80 kg, per un differente peso pilota, vedi la tabella applicazioni catalogo. La confezione include Olio specifico per il modello di moto.
**Le istruzioni di montaggio sono complete di indicazione tipo olio e quantità prevista.**

*The standard "base set-up" springs are specific for a rider's average weight of 70/80 Kg, for a different rider's weight see the application chart in the catalogue. The pack is supplied with oil specifically dedicated to that bike model.*
***The mounting instructions are complete with oil type and quantity indications.***

# KIT KFORK

ITA

## Il kit valvole forcella che trasforma la tua “stradale”

Il kit è il risultato dello sviluppo del reparto R&D Bitubo. Il kit forcella K-FORK trasforma la resa delle forcelle originali stradali in una di alta performance, utilizzato sulle forcelle da gara.
Il kit aumenta la stabilità dell’avantreno migliorando il comportamento in frenata e percorrenza di curva.

ENG

## From “street” to “race”, a radical improvement for your std fork

The kit has been developed by Bitubo R&D department. K-FORK kit transforms the original road fork into a high performance product, the same as used on racing forks. The kit increases the front end stability improving the braking characterstics in the corners.

## Preciso controllo dell'avantreno

**L'unico con camera coassale pressurizzata.** Brevetto esclusivo fin dal 1992. Questo componente consente di aumentare il controllo dell'avantreno smorzandone le oscillazioni. Particolarmente efficace quando si percorre una strada molto dissestata o nella guida al limite.
**Kit ammortizzatore di sterzo con attacchi.** Gli Ammortizzatori di Sterzo sono disponibili anche in Kit completi di attacchi, pronti al montaggio su tutte le moto che non lo prevedono in origine, o come alternativa al prodotto originale.
Gli attacchi sono integralmente in Leghe leggere di derivazione aeronautica, e ricavati dal pieno con macchine CNC. Disponibili in versione per montaggio "laterale", "sopra serbatoio", sotto strumentazione o per uso esclusivamente racing (carena senza fanaleria anteriore).

ENG

## The way to increase front-end control

**The only one with coaxial pressurized chamber.** Patented since 1992. This component increases the control of the front-end eliminating oscillations. Particularly useful when riding on very uneven road surfaces or extreme riding.
**Steering damper kit with clamps.** The steering dampers are also available with the specific clamp kits, ready for fitment on all bikes that are not originally supplied with them, or as alternative to the original damper. The clamps are manufactured in aeronautic light alloy and billet on a CNC machine. Available for the following mounting positions: "side", "over tank" (see picture), under instruments or exclusively for racing (without front lighting equipment).

ITA

### SPECIFICHE TECNICHE

Camera di compensazione "coassiale" pressurizzata in Azoto per la perfetta costanza di resa (Brevetto esclusivo fin dal 1992).

## Monoammortizzatore Racing XXZ

Derivato dal pluri-vittorioso XXF, il Mono XXZ, finora riservato solo ai nostri Team Ufficiali, si conferma come tecnologicamente al vertice, presentandosi con un design totalmente rinnovato portando con sé molte novità tecniche, come le 4 regolazioni: compressione ed estensione alle basse e alle alte velocità, con nuovi settings pensati per regalare al pilota il miglior feeling possibile. Al suo interno si rinnova con soluzioni tecniche che ottimizzano la scorrevolezza delle parti in movimento, migliorano il coefficiente di smorzamento e aumentano la stabilità alle alte temperature, senza dimenticare l'utilizzo di materiali leggeri per abbassare il peso complessivo. Lo stelo Ø14mm mantiene una ottima scorrevolezza mentre il pistone da Ø30mm gestisce le masse di fluido in movimento per una risposta più veloce alle sollecitazioni, particolare attenzione è stata dedicata a massimizzare la sensibilità e la precisione delle regolazioni. XXZ è pensato per ottenere bassa inerzia idraulica e garantire un immediato controllo delle oscillazioni della del veicolo.

ENG

## Mono shock Racing XXZ

Derived from the pluri-victorious XXF, the Mono XXZ, so far reserved only for our Official Teams, is confirmed as technologically at the top, presenting itself with a totally renewed design bringing with it many technical innovations, such as the 4 adjustments: compression and extension at low and high speeds, with new settings designed to give the rider the best feeling possible.
Inside it is renewed with technical solutions that optimize the smoothness of moving parts, improve the damping coefficient and increase the stability at high temperatures, without forgetting the use of light materials to lower the overall weight. The Ø 14mm rod keeps a great smoothness while the piston of Ø 30mm manages the masses of fluid in motion for a faster response to stress, particular attention was dedicated to maximize the sensitivity and accuracy of adjustments. XXZ is designed to obtain low hydraulic inertia and ensure an immediate control of vehicle oscillations.

Disponibile la versione per modelli successivi all'anno 2000.
*Also available for models produced after year 2000.*

ITA

## Maggiore comfort e possibilità di variare l'altezza del retrotreno

Sostituendo gli ammortizzatori originali con una coppia di Bitubo HMG12 è possibile variare l'altezza del retrotreno per cucire la propria Softail come un abito sartoriale. Le molle sono contenute all'interno di un cilindro di acciaio rigorosamente lucidato a specchio che dona un look ancora più accattivante alla moto. HMG12 è dotato di regolazione di compressione in 20 click, con le quali è possibile ottimizzare l'aderenza ed il comfort della moto. E' prevista inoltre la regolazione del precarico continuo della molla, un dispositivo essenziale da utilizzare al variare dei carichi: pilota, passeggero e bagagli. Anche l'interasse è regolabile: si può variare di 8mm e garantisce la possibilità di modificare l'altezza del veicolo per migliorare la maneggevolezza e la linea della moto. La confezione è corredata di un manuale con le indicazioni sulle metodologie per trovare il proprio assetto ideale. Come tutti i prodotti Bitubo, anche HMG12 è totalmente revisionabile in modo da garantirne la perfetta efficienza per tutta la vita della propria Softail.

ENG

## More comfort and possibility to change the height of the rear end

Replacing the original shock absorbers with a pair of Bitubo HMG12 you can vary the rear ride height to personalize your Softail like a tailored suit. The springs are contained within a steel cylinder, polished like a mirror, that gives even more appeal to the bike. HMG12 has a compression adjustment range of 20 clicks, which allows the grip and comfort of the bike to be optimised. It is also supplied with stepless spring preload adjustment, an essential device to be used with varying loads: rider, passenger and luggage. Even the length is adjustable: it can vary by 8mm and enables the rear ride height of the vehicle to be changed to improve the handling of the bike. The package is supplied with an instruction manual explaining how to find your ideal set up. Like all Bitubo products, the HMG12 can be completely overhauled, in order to guarantee the perfect efficiency throughout the life of your Softail.

## DS Road

Kit completi di cartucce anteriori e ammortizzatori posteriori a controllo elettronico. Questi prodotti sono stati sviluppati da Bitubo per migliorare le prestazioni e l'utilizzo delle moto in ogni circostanza, con numerosi settaggi adatti a diverse condizioni del fondo stradale. Cambiare setting non è mai stato così semplice, rapido ed intuitivo. Questo è possibile grazie al comando manubrio fornito nel Kit Bitubo DS. Inoltre, le regolazioni scelte vengono ottimizzate automaticamente in base alla velocità rilevata dal GPS, per mantenere il veicolo stabile e controllato alle alte velocità, e più confortevole alle basse.
Tutte le caratteristiche che hanno reso famosi i prodotti della serie XXF unite alla sensibilità e al feeling di guida delle cartucce anteriori da oggi si fondono in un unico kit disponibile per la vostra moto.

ENG

## DS Road

Kits complete with electronically controlled front cartridges and rear shock absorbers. These products have been developed by Bitubo to improve the performance and use of motorcycles in all circumstances, with numerous settings suitable for different road conditions. Changing settings has never been easier, faster or more intuitive. This is possible thanks to the handlebar control supplied in the Bitubo DS Kit. Moreover, the selected adjustments are automatically optimised based on the speed detected by the GPS, to keep the vehicle stable and controlled at high speeds, and more comfortable at low speeds. All the features that have made the XXF series products famous, together with the sensitivity and riding feeling of the front cartridges, are now merged into a single kit available for your bike.

ITA

## DS Custom

Kit completi di cartucce anteriori pressurizzate e ammortizzatori posteriori il tutto a controllo elettronico. Questi prodotti sono stati sviluppati da Bitubo per fornire un comfort superiore in tutte le situazioni, con settaggi dedicati ai viaggi in solitario, con passeggero e a pieno carico. Il kit DS CUSTOM raccoglie tutta l'esperienza e la tecnologia maturata negli anni da Bitubo per racchiuderla in un unico kit pronto all'utilizzo ed installabile senza alcuna modifica della vostra moto. Il controllo delle sospensioni con settaggi dedicati e studiati per i vostri viaggi che potranno essere modificati e lanciati nel sistema DS in pochi istanti, per essere selezionati e modificati rapidamente durante la guida, per godere appieno della vostra personalizzazione in tutti i viaggi. Inoltre, una volta scelta l'impostazione desiderata, la centralina ne ottimizza le regolazioni in base alla velocità rilevata dal GPS, in modo da mantenere il veicolo confortevole durante la guida a basse velocità e controllato durante la guida ad alte velocità.

ENG

## DS Custom

Complete kits with pressurised front cartridges and rear shock absorbers, all electronically controlled. These products have been developed by Bitubo to provide superior comfort in all situations, with settings dedicated to solo, with passenger and full load journeys. The DS CUSTOM kit contains all the experience and technology acquired over the years by Bitubo in a single ready-to-use kit which can be installed without any modification to your bike. Suspension control with dedicated settings designed for your journeys can be modified and activated in the DS system in just a few moments, to be selected and modified quickly while riding and to enjoy your customisation to the full on all journeys.Moreover, once the desired setting has been selected, the control unit optimises its adjustments based on the speed detected by the GPS, so as to keep the vehicle comfortable by riding at low speed and controlled by riding at high speed.

# KIT FORK

ITA

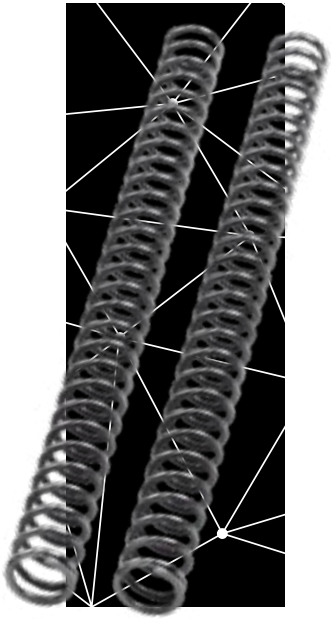
## La giusta rigidezza

Le molle BITUBO sono in acciaio legato CR-Si, con trattamento termico, pallinatura e assestamento finale, per assicurare altissime prestazioni nel tempo. Nella confezione sono indicate la viscosità e il livello dell'olio raccomandato, in base alle esperienze maturate dal nostro Team Sviluppo.

ENG

## The appropriate stiffness

BITUBO springs are manufactured in Cr-Si alloy steel, they also undergo heat treatment, a stabilizing procedure and final shot-basting with steel balls, thus ensuring very high performances for a long time. The kit includes indication of recommended oil viscosity and level, according to the experiences and data collected by our R&D Team.



## KIT MFX FORK

## KIT KX FORK

ITA

## Trasforma la tua forcella

Il KIT KX FORK migliora la stabilità dell'avantreno in frenata, percorrenza in curva, e nella successione ravvicinata delle sollecitazioni tipiche del fuoristrada.
**N.B.** KX FORK in ogni kit viene indicato il tipo di olio, il suo livello, lo schema lamelle specifico per l'utilizzo CROSS o ENDURO. In ogni confezione inoltre sono presenti lamelle aggiuntive per ottimizzare lo schema idraulico in base a come si intende utilizzare il proprio veicolo.

ENG

## Change your fork

The KX FORK KIT increases the front end stability improving the braking characteristics when cornering as well as during close successions of stresses, typical of off-road driving.
**NOTICE** KX FORK for each kit it is indicated the oil type, its quantity, the specific schemes for CROSS or ENDURO driving. Moreover, in each package there are additional shims to optimize the hydraulic scheme based on the choice of use of the vehicle.

## Special: dedicata agli appassionati Vespa più sportivi

La linea SPECIAL è la risposta concreta a chi cerca il top nella tecnica e nelle prestazioni. Ammortizzatori pressurizzati a gas (Azoto) con vaschetta di compensazione separata, sono l'evoluzione dell' esperienza raccolte da BITUBO sui campi di gara. Il piedino di attacco inferiore e la vaschetta di compensazione, realizzati in lega di alluminio, presentano una particolare verniciatura "nero satinato", scelta non solo per motivi di "look" moderno e aggressivo, ma per le sue caratteristiche di resistenza all'usura e agli agenti ossidanti.

ENG

## Special style: Dedicated to the true Vespa enthusiasts

This SPECIAL line is the definitive answer for people who want the latest technology and best performance. Gas (Nitrogen) pressurized shocks with separate compensation tank represent the evolution of BITUBO's experience gathered in race tracks. The lower attachment and the compensation tank, manufactured in aluminium alloy, offer a specific "satin black" finish, which has been chosen not only to give a modern and aggressive "look", but also for its wear resistance and antioxidant agent.

ITA

### SPECIFICHE TECNICHE

Grazie alla ghiera millimetrica, per la regolazione del precarico molla, e alla regolazione del freno di compressione, è possibile personalizzare ulteriormente il setting della sospensione, secondo le proprie esigenze.

ENG

### TECHNICAL FEATURES

Thanks to the millimetric ring for spring preload and the brake compression adjustment, it is easy to personalize the suspension settings even more, according what the individual rider needs.

**Attenzione:** La sostituzione del sistema di precarico comporta una rivalutazione degli spazi dedicati alla molla e al suo precarico applicato, quindi contestualmente al precaricatore si potrebbe rendere necessaria la sostituzione della molla.
Bitubo consiglia di avvalersi del supporto di un Rivenditore o un Centro Tecnico Bitubo, che in base al codice del prodotto da voi acquistato potrà definire la migliore scelta per le vostre esigenze.
Tutti gli indirizzi nel sito **www.bitubo.com**

***Warning:*** *the replacement of the preload system leads to a reevaluation of the spaces dedicated to the spring and the preload, so together with the preload it might be necessary the replacement of the spring.*
*Bitubo suggests to rely on the support of a Reseller or a Bitubo Technical Center which, based on the purchased product, is able to define the best choice for your needs.*
